

## Regulatory Announcement

**Company** Accsys Technologies PLC  
**TIDM** AXS  
**Headline** Notifiable Interest  
**Released** 25 February 2011  
**Number** 9070B15

**AIM: AXS**  
**NYSE Euronext Amsterdam: AXS**

25 February 2011

### ACCSYS TECHNOLOGIES PLC ("Accsys" or "the Company")

#### Notifiable Interest

The Company announces that it received the following notification on 25 February 2011:

## TR-1<sup>i</sup>: NOTIFICATION OF MAJOR INTERESTS IN SHARES

<b>1. Identity of the issuer or the underlying issuer of existing shares to which voting rights are attached<sup>ii</sup>:</b>	Accsys Technologies Plc	
<b>2. Reason for the notification</b> (please tick the appropriate box or boxes)		
An acquisition or disposal of voting rights	<input checked="" type="checkbox"/>	X
An acquisition or disposal of financial instruments which may result in the acquisition of shares already issued to which voting rights are attached	<input type="checkbox"/>	
An event changing the breakdown of voting rights	<input checked="" type="checkbox"/>	X
Other (please specify): Disclosure under DTA transitional rule <i>[FSA Policy Statement 06/11 para 3.39]</i>	<input type="checkbox"/>	
<b>3. Full name of person(s) subject to the notification obligation<sup>iii</sup>:</b>	Royal Bank of Canada	

<b>4. Full name of shareholder(s)</b> (if different from 3.) <sup>iv</sup> :	Roy Nominees Limited
<b>5. Date of the transaction</b> (and date on which the threshold is crossed or reached if different) <sup>v</sup> :	18 <sup>th</sup> February 2011
<b>6. Date on which issuer notified:</b>	24 <sup>th</sup> February 2011
<b>7. Threshold(s) that is/are crossed or reached:</b>	5 %

<b>8. Notified details:</b>	
-----------------------------	--

### A: Voting rights attached to shares

Class/type of shares if possible using the ISIN CODE	Situation previous to the Triggering transaction <sup>vi</sup>		Resulting situation after the triggering transaction <sup>vii</sup>				
	Number of Shares	Number of Voting Rights <sup>viii</sup>	Number of shares	Number of voting rights <sup>ix</sup>		% of voting rights	
			Direct	Direct <sup>x</sup>	Indirect <sup>xi</sup>	Direct	Indirect
Ordinary EUR 0.01 shares Isin GB00B0LMC530	11,555,855				23,111,709		5%

### B: Financial Instruments

Resulting situation after the triggering transaction <sup>xii</sup>				
Type of financial instrument	Expiration date <sup>xiii</sup>	Exercise/ Conversion Period/ Date <sup>xiv</sup>	Number of voting rights that may be acquired if the instrument is exercised/ converted.	% of voting rights

### Total (A+B)

Number of voting rights	% of voting rights
23,111,709	5%

**9. Chain of controlled undertakings through which the voting rights and/or the financial instruments are effectively held, if applicable <sup>xv</sup>:**

The shares are registered in the name Roy Nominees which acts as the nominee holding company for RBC Trustees (CI) Limited whose ultimate parent is Royal Bank of Canada

Due to the change in the issued share capital from 200,602,528 shares to 403,102,528, Royal Bank of Canada's reportable position has been reduced and crossed a reportable threshold.

**Proxy Voting:**

<b>10. Name of the proxy holder:</b>	
<b>11. Number of voting rights proxy holder will cease to hold:</b>	
<b>12. Date on which proxy holder will cease to hold voting rights:</b>	

<b>13. Additional information:</b>	This disclosure incorporates the position previously disclosed by OakFoundation USA INC./Oak Holdings Limited.
<b>14. Contact name:</b>	Scott Roberts
<b>15. Contact telephone number:</b>	(01534) 602971

**Ends**

**For further information, please contact:**

<b>Numis Securities Limited</b>	Christopher Wilkinson Ben Stoop	+44 20 7260 1347 +44 20 7260 1410
<b>Citigate Dewe Rogerson</b>	Ginny Pulbrook Malcolm Robertson Suzanne Bakker	+44 20 7282 2945 +44 20 7282 2867 +31 20 575 4023

**Notes to editors:**

**Accsys Technologies PLC** ([www.accsysplc.com](http://www.accsysplc.com)) is an environmental science and technology company whose primary focus is on the production of Accoya® wood and technology licensing via its 100% owned subsidiary, Titan Wood Limited, which has manufacturing operations in Arnhem, the Netherlands, a European office in London and an Americas office in Dallas, Texas. Accsys Technologies' operations comprise three principal business units: (i) the Accoya® wood production facility located in Arnhem, The Netherlands; (ii) technology development, focused on a programme of continuous improvements to the process engineering and operating protocols for the acetylation of wood which are currently under development and the development of technology for the acetylation of wood fibre; and (iii) the licensing of technology for the production of Accoya® wood and Tricoya® wood elements across the globe.

**Accoya® Wood** ([www.accoya.info](http://www.accoya.info)) is produced by using a proprietary, non-toxic process that effectively converts sustainably grown softwoods and non-durable hardwoods into what is best described as a "high technology wood" via acetylation. Distinguished by its durability, dimensional stability and, perhaps most importantly of all, its reliability (in terms of consistency of both supply and quality), Accoya® wood is particularly suited to exterior applications where performance and appearance are valued. Unlike most woods, its colour does not degrade when exposed to sunlight. Moreover, the Accoya® wood production process does not compromise the wood's strength or machinability. The combination of UV resistance, dimensional stability, increased coatings life, durability and retained strength means that Accoya® wood offers a wealth of new opportunities to architects, designers and specifiers. Leading applications include external doors and windows, shutters/shading, siding and cladding, decking, outdoor furniture/equipment and glulam beams for structural use.

**Tricoya® Wood Elements** ([www.tricoya.com](http://www.tricoya.com)) is Accsys Technologies' proprietary technology for the acetylation of wood fibres, chips, and particles for use in the fabrication of wood based composites, including panel products. These composites demonstrate enhanced durability and dimensional stability which allow them to be used in a variety of applications which were once limited to solid wood or man-made products. Tricoya® Wood Elements is lauded as the first major innovation in the wood composites industry in more than 30 years.

**Wood Acetylation** is a process, which increases the amount of 'acetyl' molecules in wood, thereby changing its physical properties. The environmentally responsible process protects wood from rot by making it "inedible" to most micro-organisms and insects, without - unlike conventional treatments - making it toxic. It also greatly reduces the wood's tendency to swell and shrink, making it less prone to cracking and ensuring that, when painted, it requires dramatically reduced maintenance. Acetylated wood's increased durability offers major carbon sequestration advantages, compared to other woods and man-made building materials such as steel, vinyl, and plastic.

**Wood Composites** include a range of derivative wood products which are manufactured by binding together the strands, particles, fibres, or veneers of wood together with adhesives to form composite materials. These products are engineered to precise design specifications which are tested to meet national or international standards.

Accsys Technologies is the trading name of Titan Wood Limited. ACCOYA<sup>®</sup>, TRICOYA<sup>®</sup> and the Trimarque Device are registered trademarks owned by Titan Wood Limited and may not be used or reproduced without written permission.
