20th August 2007

AIM: AXS

ACCYSYS TO LIST ON EURONEXT AMSTERDAM

Accsys Technologies PLC ("Accsys" or the "Company") announces its intention, with reference to its earlier release dated 28 June 2007, to seek a listing on Euronext Amsterdam by NYSE Euronext and conduct a share offering. The intended offering is expected to consist of new ordinary shares offered by the Company and existing ordinary shares offered by certain Accsys shareholders. It is expected that the listing will be completed before the end of the year.

Fortis has been appointed Sole Lead Manager and Bookrunner for the intended transaction.

Information on the Accsys Group of Companies:

Accsys Technologies PLC (www.accsysplc.com) - is an environmental science and technology company whose primary focus is on the production and licensing of Accoya™ via its 100% owned subsidiary, Titan Wood (www.titanwood.com), with manufacturing operations based in Arnhem, The Netherlands. Accoya™, manufactured through the Company's proprietary acetylation process, exhibits superior dimensional stability and durability compared with other natural and treated timber. Accsys is also developing technology to modify wood fibre to enable future production of a range of panel products.

Accsys' operations comprise three principal business units: (i) the Accoya™ production facility located in Arnhem, The Netherlands; (ii) technology development focused on a programme of continuous improvements to the process engineering and operating protocols for the acetylation of wood as well as the development of technology for the acetylation of wood fibre; and (iii) the licensing of technology for the production of Accoya™ across the globe.

Accsys Technologies PLC shares are traded on the London Stock Exchange AIM market under the symbol 'AXS'.

Accoya™ wood (www.accoya.info) is produced using a patented process that effectively converts sustainably grown softwoods and non-durable hardwoods into what is best described as a 'new wood species'. Distinguished by its durability, dimensional stability and, perhaps most importantly, its reliability (in terms of consistency of both supply and quality), Accoya™ wood is particularly suited to exterior applications where performance and appearance are valued. Unlike most tropical and European hardwoods, its colour does not degrade when exposed to ultraviolet light. Moreover, the Accoya™ wood production process does not compromise the wood's strength or machinability. The combination of UV resistance, dimensional stability, durability and retained strength means that Accoya™ wood offers a wealth of new opportunities to architects, designers and specifiers. For marine uses where weight is also important, Accoya™ wood for the first time

provides boat builders with a wood that is strong and durable, which retains its natural beauty for far longer, without a dramatic weight increase.

ACCOYA is a registered trademark owned by Titan Wood Limited

Other information:

Not for release, distribution or publication into or in the United States, Australia, Canada, or Japan.

This announcement is not an offer to sell or a solicitation of any offer to buy the Company's securities (the "Securities") in the United States or in any other jurisdiction.

The Securities have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act") and may not be offered or sold in the United States unless registered under the Securities Act or an exemption from such registration is available. No public offering of Securities of the Company is being made in the United States.

The offer to acquire securities pursuant to the proposed offering will be made, and any investor should make his investment, solely on the basis of information that will be contained in the prospectus to be made generally available in The Netherlands in connection with such offering. When made generally available, copies of the prospectus may be obtained at no cost from Accsys or Fortis or through the website of Euronext Amsterdam (Dutch residents only).
