**Accsys Technologies PLC Executive Chairman, William Paterson-Brown,
in exclusive interview with The Wall Street Reporter**

Friday July 21, 8:00 am ET

NEW YORK, July 21, 2006 -- On June 26, William Paterson-Brown, Executive Chairman of Accsys Technologies PLC (AXS) gave an exclusive interview with The Wall Street Reporter. Mr. Paterson-Brown discussed a range of topics including the company's recent fiscal year end results, restructuring and ownership of subsidiaries and recent financing. In particular, 'Willy' detailed the company's revolutionary acetylation technology that effectively gives softwoods the durability, stability and reliability of the very best hardwoods, providing for substantial improvements in cost and environmental impacts.
